

You like being on the fast track?

Then our slotted measuring line will be just right for you! It contains an integrated displacement sensor that permits direct graphic presentation of standing waves, reflections, field trends, etc. when used together with a Sensor-CASSY. The resulting displays are a lot more interesting to view than a bouncing instrument pointer on a test instrument.

EQUIPMENT SET LIST

Waveguide Technology

QUANTITY	CAT. NO	DESCRIPTION
1	737 01	Gunn Oscillator
1	737021	Gunn Power Supply with SWR Meter
1	737 03	Coax Detector
1	737 035	Transition Waveguide/Coax
1	737 05	PIN Modulator
1	737 06	Isolator
1	737 09	Variable Attenuator
1	737 095	Fixed Attenuator
1	737 10	Moveable Short
1	737 111	Slotted Measuring Line
1	737 12	Waveguide 200 mm
(1)	737 13	Slide Screw Transformer
1	737 135	3-Screw Transformer
2	737 14	Waveguide Termination
1	737 18	Cross Directional Coupler
1	737 22	Set of 4 Slit Diaphragms with Holder
1	737 29	Waveguide Propagation Accessories
(1)	737 35	E-Field Probe
1	737 399	Set of 10 Thumb Screws M4
1	524 010SUSB	CASSY-Starter USB
1	568 732	Book: Waveguide Technology
